

# Cairo energy storage sales

How can Egypt store electricity?

Egypt has been looking at a number of ways to store electricity as part of its ambitions to grow renewable energy capacity to cover 42% of the country's electricity needs by 2030. These include upgrading its power grid and incorporating pumped-storage hydroelectricity stations to help store electricity for future use.

Can batteries solve Egypt's Electricity oversupply problem?

Egypt is exploring the potential of energy storage through batteries to combat our electricity oversupply problem: As Egypt continues to suffer from a major oversupply of electricity, the country is in need of new ways to tackle the issue.

Is Egypt a good PV market?

Osmundsen said that Egypt is fundamentally an attractive PV market but the country's current economic crisis, including a severe currency depreciation, is making foreign investment difficult.
