

The ExxonMobil-operated PNG LNG project has entered into a mid-term sale and purchase agreement with PetroChina for the supply of liquefied natural gas starting in July 2018. ... The LNG export project includes the gas conditioning plant in Hides and liquefaction and storage facilities near Port Moresby with a capacity of 6.9 million tonnes per ...

China's state-owned oil and gas producer PetroChina has acquired a 100% stake in Potevio New Energy, ... to diversify its portfolio by entering low-carbon sectors, including renewables, hydrogen fuel, and carbon capture and storage (CCS) projects.

BP is set to build a carbon capture, utilisation and storage (CCUS) cluster with PetroChina in Hainan province in southern China. The UK supermajor's China arm signed a memorandum of ...

It is a supporting energy storage project for the 1 million kilowatt wind, solar, gas and hydrogen project of PetroChina Qinghai Oilfield. The project includes 300,000 kilowatts of ...

Final Agreement for Continuing Collaboration with PetroChina International (Japan) Co., Ltd. ENEOS Corporation (President: Ota Katsuyuki; "ENEOS") announces that it has made a final ... who aims to strengthen the platform for stable energy supply in the Asia-Pacific region, and as a result reached a final agreement with PCJP.

Energy Storage Energy Efficiency New Energy Vehicles Energy Economy Climate Change Biomass Energy. ... The gas from the project owned by Arrow Energy, a joint venture between Shell and PetroChina (601857.SS), opens new tab, will be supplied to Shell-operated QCLNG liquefied natural gas facility near Gladstone. ...

In a significant development for the renewable energy sector, Oracle Energy, a subsidiary of Oracle Power, has entered into a memorandum of understanding (MoU) with PetroChina International Middle East (PCME) to explore commercial opportunities for its Green Hydrogen Project in Sindh, Pakistan.

Current Access Level "I" - ID Only: CUID holders and approved guests only. Building Access: Normal building operating hours with exceptions. Read more about the campus status level system and campus access information.; See the latest updates to the community regarding campus planning.

Energy Storage Energy Efficiency New Energy Vehicles Energy ... The local government has not said if it will subsidise the project, something PetroChina is still lobbying for. PetroChina's refining and chemical budget of 38bn yuan (\$5.9bn) this year, up by 74pc from 2020, includes construction of its only greenfield 400,000 b/d Jieyang refinery ...

Petrochina energy storage project

PetroChina said it expects investments on low-carbon energy projects to account for one-third of its overall spending by 2035, underpinning the state-backed company's efforts to help the country ...

Phase 2 of the Surat Gas Project. Announced by Shell and PetroChina, the SGP will begin to develop its second phase. As part of an existing 27-year gas sales agreement between Arrow Energy and GQC, the gas from the project will flow to the Shell-operated QCLNG facility on Curtis Island to meet long-term contracts and supply domestic customers.

PetroChina said the CCS project at Jilin is the largest in Asia, with the CO₂ injected to date exceeding 2 million tonnes. Five CCS-EOR pilot projects have been set up at Jilin focused on 86 ...

Many of the company's exploration projects are carried out by the Great Wall Drilling Company (GWDC), a wholly owned drilling services company. [23] In 2018 the company announced it is building natural gas storage facilities with a total capacity of 55.6 billion cu m in the northern Henan province, to ease supply bottlenecks in the peak winter ...

He added that PetroChina plans to add renewable energy production capacity of 3.45 million tonnes of coal equivalent in 2021, and has increased heating space covered by geothermal by 10 million ...

On July 1, PetroChina's first water surface solar system project, the Daqing Oilfield Spark Water Surface solar system Demonstration Project, was connected to the grid for power generation, which marked the overall acceleration of the integration of Daqing Oilfield's new energy business into the main business.. Daqing Oilfield vigorously cultivates new energy ...

PetroChina has aimed to bring its carbon emissions to a peak by around 2025 and reach near zero emissions by 2050, ahead of China's national target of peaking carbon by ...

PETRONAS became a project development partner in May 2018 by acquiring 25% stake in LNG Canada in May 2018. The final investment decision (FID) on the project was announced in October 2018. Construction is expected to start by the end of 2018, with first LNG production expected in 2023. LNG Canada project location and development details

In the first half of 2024, China has successfully completed eight significant long duration energy storage projects, marking substantial progress in the country's renewable ...

GE is known for its involvement in various energy storage projects, particularly when it comes to grid-scale battery storage solutions. It continues to be at the forefront of developing and deploying advanced energy storage technology and putting forward contributions to the energy storage space that underscore its leadership and influence. 8. AES

Petrochina energy storage project

PetroChina (51%), BE Group (29%), and Hebie Natural Gas (20%) entered into a joint venture contract for the developments of the Tangshan LNG terminal in October 2011. The Tangshan LNG import project was approved by China's National Development and Reform Commission (NDRC) in October 2010.

Crude production accounted for about 55% of its energy mix last year, while PetroChina targets to raise gas output proportion to 55% in 2025 from 51.6% in 2021. ... the company set up six new energy bases to develop its clean energy projects in Yumen, Qinghai, Jidong, Jilin, Daqing and Beijing-Tianjin-Hebei, in the northern part of China ...

PetroChina reported net profit of 92.17 billion yuan (US\$14.53 billion) for 2021, more than quadruple last year's and its biggest since 2014, thanks to a rise in energy prices in the ...

Iraq, OPEC's second-largest producer, has approached PetroChina and ExxonMobil about investing in a multi-billion-dollar project to boost output from its smaller southern oilfields, a senior Iraqi ...

The hydrogen will be sourced from a power-to-liquids demonstration project at Yumen, which converts solar energy from a 160-MW PV station into hydrogen through a PV-electrolysis system ...

UK's major BP (LON: BP) and peer PetroChina (SHA: 601857) will work together on the construction of an onshore carbon capture, utilization, and storage (CCUS) cluster in Hainan, the southernmost province of China, global oil and gas news source Upstream reported.. The collaboration was formalized via a memorandum of understanding (MoU) ...

The plan shows that 15 new energy storage projects will be built in Qinghai province in 2024, including the 1 million kilowatt wind and solar hydrogen project of PetroChina Qinghai Oilfield, which will be supported by green electricity hydrogen production (hydrogen energy). This is China Petroleum's first large-scale green hydrogen project.

Singapore, September 21, 2022 - Air Liquide, Chevron, Keppel Infrastructure, and PetroChina 1 announced they have signed a memorandum of understanding to form a consortium which will aim to evaluate and advance the development of large-scale carbon capture, utilization, and sequestration (CCUS) solutions and integrated infrastructure in ...

PetroChina and China's Haixi prefecture in the Qinghai province have revealed construction blueprints for a 1 million-kilowatt wind and solar-based hydrogen project, after ...

Metal Energy acquires Highland Valley Copper Project in British Columbia; Analysis. Sections. Power; Oil & Gas ... How SwRI's modular m-Presa Dam System is transforming grid-scale energy storage and generation; ... A 300,000-dwt wharf, constructed by CITIC Port Investment, Ningbo Port, Ningbo Bohai Shipping Trade, and PetroChina Fuel Oil ...
