How much does a power storage 20 battery cost?

The battery alone starts at \$19,500, according to Savant. If you want to add some of Savant's other smart energy products or solar panels to the mix, the cost gets much higher. If you already have solar on your roof, then adding the Power Storage 20 to your home will likely be less of a financial burden than buying everything all at once.

What is a power storage 20?

The Power Storage 20 features a modular design, so the actual "battery" part of the Power Storage 20 is actually a bunch of smaller batteries installed together inside an enclosure. There are eight battery modules in total. Each module holds up to 2.5 kWh of energy and can be easily slid in and out of the main enclosure.
