

San salvador energy storage

Does El Salvador have a national energy policy?

Institutional structure of energy sector El Salvador's National Energy Policy 2020-2050 was still being developed by CNE at the time of this report's release, with a publishing date of later in 2020. At time of writing, the existing national energy policy was thus still the one published by the Council in 2010 (CNE, 2010).

Does El Salvador use geothermal energy?

Despite having a long tradition of geothermal energy use, mainly for power generation, El Salvador's geothermal development has stagnated in recent years, with a limited number of new projects for geothermal power generation, or heating applications.

Does El Salvador have a hydroelectric power plant?

Hydropower continues to have the largest share of renewables in El Salvador's electricity mix. 40 MW generating units begin commercial operation. This allows them to harness the surplus water that accompanies the rainy season. Meanwhile, the El Chaparral hydroelectric plant is under construction and will have an installed generation capacity of
