

On September 22, 2023, the Office of Clean Energy Demonstrations (OCED) announced the selection of 15 projects under the Long-Duration Energy Storage Program to enter award negotiations. Local stakeholders will have substantive opportunities to engage with both DOE and the project teams, starting during the negotiation process and extending throughout the full ...

In concurrent news, Giga Storage hopes to start construction on its 300MW/1,200MWh Leopard BESS project in the Netherlands this year, CCO Lars Rupert told Energy-Storage.news whilst at the ees Europe trade show and conference last week.. Leopard is also planned for a location in the north of the country, at a former aluminium smelting site of ...

Australia"s "largest-ever" tender for renewable energy will open next month with the federal government targeting 6 GW of new solar and wind projects as part of its expanded Capacity Investment Scheme that is seeking 32 GW of additional capacity to support the nation"s clean energy transition.

About us Energy Storage Publications EU Projects News Events Contact us. member login . Shaping the future ... The tender is for constructing and designing a 500-megawatt underground pumped hydro energy storage plant in Paldiski. ... (PCI project). It is the only pumped hydro energy storage project in the Northern Baltic region and will also be ...

We have announced the results of Tender Round 4 - Generation in NSW. Two projects representing 312 MW (980 GWh) of renewable energy generation, including one with 372 MWh of storage have received Long-Term Energy Service Agreements following AEMO Services" rigorous two-stage tender assessment process. Successful projects in Tender Round 4

About the Project. The proposed Borumba Pumped Hydro Project is a 2,000 MW pumped hydro energy storage system at Lake Borumba, located near Imbil, west of the Sunshine Coast. The existing lower reservoir (Lake Borumba) will be expanded with a new dam wall downstream from the current Borumba Dam.

With these projects storing the surplus clean, homegrown energy produced from renewable sources, we can boost our energy security by relying less on fossil fuels, protect household bills, and help ...

The Department of Mineral Resources and Energy (DMRE) invites bids under the Second Bid Window of the Battery Energy Storage Independent Power Producers Procurement Programme for 615MW (2,460MWh) battery energy storage capacity and ancillary services in line with the power system requirements as set out by the System Operator.

Selected and Awarded Projects. On September 22, 2023, OCED announced projects selected for award negotiations following a rigorous Merit Review process to identify meritorious applications based on the criteria listed in the Funding Opportunity Announcement.. A wards are being made on an ongoing basis, starting in June 2024. Learn more about the selected and awarded ...

Polish utility PGE Group has launched a tender for the design and construction of a battery storage facility with a minimum capacity of at least 900 MWh. Meanwhile, Ukraine's DTEK has completed the acquisition of a 532 MWh battery storage project in southern Poland.

The tender calls for the procurement of five energy storage systems targeting a total of 616 MW/2,464 MWh. With bids due by July 31, 2024, the projects will be situated at five pre-selected substation sites identified by South African energy company Eskom. The sites include the Harvard, Leander, Theseus, Everest and Merapi substations in the ...

The Hungarian Ministry of Energy has announced that around 50 grid-scale energy storage projects with a cumulative capacity of 440 MW have received subsidy support through a tender launched in ...

On September 22, 2023, the Office of Clean Energy Demonstrations (OCED) announced the selection of 15 projects under the Long-Duration Energy Storage Program to enter award ...

Hydrogen Storage Fuel Cells ... See DOE"s Office of Nuclear Energy funding opportunities page for new announcements about financial ... \$52 Million for Small Business Research and Development Grants--Including \$3.4 Million for Hydrogen and Fuel Cell Projects. U.S. Department of Energy Invests Over \$9 Million to Advance Hydrogen Technology That ...

A tender for 600 MW/2.4 GWh of energy storage in Victoria and South Australia has been announced as part of Australia's new national Capacity Investment Scheme, a project underwriting program ...

In the past couple of days developer Akaysha Energy has disclosed a AU\$250 million (US\$163.57 million) debt financing deal, Commonwealth energy minister Chris Bowen revealed huge interest in a tender scheme and state-owned utility Synergy awarded a AU\$160 million contract for work on a 2GWh BESS project.

Oslo, 30 November 2023: Scatec ASA has been awarded preferred bidder status for the Mogobe (Ferrum) battery energy storage project totalling 103 MW/ 412 MWh under the first bid window of the Battery Energy Storage Independent Power Producer Procurement Programme (BESIPPPP) in South Africa, by the Department of Mineral Resources and Energy. Scatec will dispatch ...

The Minister of Electricity and Energy, Hon. Dr. Kgosientsho Ramokgopa, is pleased to announce the successful signing of the Projects Agreements and Commercial Close of the first two Projects appointed as Preferred Bidders under the first Battery Energy Storage Independent Power Producer Procurement

Programme (BESIPPPP) Bid Window 1.

WASHINGTON, D.C. -- As part of President Biden's Investing in America agenda, the U.S. Department of Energy (DOE) today announced \$750 million for 52 projects across 24 states to dramatically reduce the cost of clean hydrogen and reinforce America's global leadership in the growing clean hydrogen industry. These projects--funded by the President's ...

The latest Firm Dispatchable Renewable Energy (FDRE) tender, hosted by the Solar Energy Corporation of India (SECI), has selected winners. ... Australia's energy storage sector has seen trio of significant announcements around major battery energy storage system (BESS) projects. State power company seeks 2,500MWh BESS, pumped hydro consultant ...

A roundup of the biggest projects, financing and offtake deals in the energy storage sector that we have reported on this year. It's been a positive year for energy storage ...

He also commented on a Project in Smyth County, Virginia, which Plus Power recently proposed, the 250MW/1,000MWh Laurel Creek Energy Storage project. "The Laurel Creek Energy Storage project in Smyth County will perform as a merchant project. Its location is positioned at a critically-important substation for the AEP grid. Its 2029 completion ...

Australia"s Federal Budget 2023-2024 included AU\$4 billion (US\$2.71 billion) new investment in the energy transition, and confirmation of tenders for renewables and energy storage. The budget was announced yesterday evening (9 May) by the Commonwealth government, with an emphasis on energy costs, supply reliability and environmental impacts ...

The unique entity identifier used in SAM.gov has changed. On April 4, 2022, the unique entity identifier used across the federal government changed from the DUNS Number to the Unique Entity ID (generated by SAM.gov). The Unique Entity ID is a 12-character alphanumeric ID assigned to an entity by SAM.gov.

The government of Kuwait has launched a tender for solar projects with a total capacity of 1.1GW, to be installed at its Al Shagaya Renewable Energy facility in the west of Kuwait City.

On 25 July 2024, the Bulgarian Ministry of Energy closed the open discussion on the terms and conditions for the upcoming battery energy storage system (BESS) tender, deciding that more than 3000 MWh will be funded by grants from the EU's Recovery Resilience Facility.1.

We have announced the results of Tender Round 3 - generation and long-duration storage infrastructure in NSW. Five projects representing 750 MW of renewable energy generation and 524 MW (4,192 MWh) of long-duration storage have received Long-Term Energy Service Agreements following AEMO Services' rigorous two-stage tender assessment process.

The US Department of Energy (DOE) will disburse up to US 100 million (EUR 92.4m) to fund the development of pilot-scale, long-duration energy storage (LDES) projects utilising non-lithium technologies. DOE"s Office of ...

3 · These projects will be developed on a build-own-operate basis. NTPC set a minimum project size of 50 MW, with increments allowed in multiples of 10 MW, and a maximum allotment of 600 MW per bidder. Energy storage systems are required for each project, and a minimum of 90 per cent power availability during peak hours is mandated.

This BESS project site in Texas by developer Eolian is thought to be the first in the US to have availed of the ITC for standalone energy storage. Image: Wärtsilä. New guidance from the US government clarifying rules around tax credit incentives for energy storage and offshore wind energy has been welcomed by clean energy trade associations.

U.S. energy storage capacity will need to scale rapidly over the next two decades to achieve the Biden-Harris Administration's goal of achieving a net-zero economy by 2050. DOE's recently published Long Duration Energy Storage ...
